

**Parental Consent for Youth Under the Age of 18 for Participation  
in National Congress of American Indians/Boys & Girls Clubs of America Youth Survey**

Your son/daughter/guardian is invited to participate in a youth survey conducted by the National Congress of American Indians and Boys & Girls Clubs of America.

The survey focuses on how Native youth currently view themselves and their future, their involvement with their communities; the level of support received from family, teachers, friends, and the community; and top challenges they see tribal leaders and their community facing.

We are asking for permission to allow your son/daughter/guardian to participate in this survey.

Any information that is obtained in connection with this survey and that can be identified with your son/daughter/guardian will remain confidential and will not be disclosed in any way. His or her responses will not be linked to his or her name or your name in any written or verbal report of this research project. Furthermore, in appreciation for participating in the survey, your son/daughter/guardian will be given the voluntary option to participate in a prize drawing for a t-shirt or gift card.

**If you object to having your son/daughter/guardian participate in this survey, please sign below. If you do not return this form, this action will be your consent for your son/daughter/guardian's participation in the survey.**

If you have any questions about the study, please contact Christina Daulton, NCAI Program Manager at (202) 640-6023 or [cdaulton@ncai.org](mailto:cdaulton@ncai.org).
